MUSIC & ART

At Covenant Preparatory Classical School, our strings program is a cornerstone of our classical education approach. Rooted in the timeless value of the fine arts, we believe that music not only enriches the soul but also cultivates discipline, creativity, and an appreciation for beauty and harmony. All students in grades 3 through 11 engage in this immersive experience, learning to play either the violin or cello—deepening their connection to the cultural heritage that defines a classical curriculum.

Every student—from our youngest learners to our upper level schoolers—actively participates in choir and art as essential components of our classical education model. This intentional integration nurtures not only artistic expression, but also the virtues of discipline, beauty, and collaboration. Choir cultivates the power of shared voice, while art opens the door to creativity rooted in tradition. Together, these programs reinforce our commitment to educating the whole child—mind, body, and spirit—through experiences that connect them to timeless truth and beauty.
